

IN THE HIGH COURT OF JUDICATURE AT PATNA
Cr.Misc. No.30623 of 2008
GUDDU RAI @ DHANANJAY RAI
Versus
STATE OF BIHAR

2. 13.8.2008 Heard.

The allegation is that the petitioner fired a shot into the abdomen of the brother of the informant who is the deceased.

The contention is that there might not be any injury corresponding to the allegation. On careful perusal of the copy of the post mortem report (Annexure-2) one could have first impression that the contention holds good but as soon as one comes down the post mortem report and goes through the internal examination part of the same, one could find that there was injury which is not described in the earlier part of the report and that fully corresponds to the allegation assigned to this petitioner, considering which this petition is dismissed.
